Wine grapes were the fourth <u>highest fruit crop</u> in Oregon in 2004. Five years later they are number one!

Wine Grape Cultivation

Wine grapes are usually the fourth most important fruit crop in the state, depending on harvest and market conditions year-to-year. The value of the wine grape crop was \$36 million in 2003 and \$32 million in 2004 (a smaller crop). Average per ton value grew from \$1,510 to \$1,552. The following chart illustrates the wine grape crop value compared to those of other crop values over the last two years.
